(Special to The Times-Dispatch.)
NORFOLK, VA., May 22.—Lieutenant J. P. Gay, of Franklin, of the Seventyfirst Virginia Regiment, is the first of ficer of Virginia to accept the offer of an education at a United States military school. He has notified Colonel A. M. Higgins here that he desires to accept the offer of the government for training of one year at one of the stations with the allowance of \$30 a month for expenses, which accompanies the offer, Colonel Higgins has advised Governor Montague and Adjutant Wright has gone to Franklin to make the final arrangements. It is understood that Lieutenant Gay will be

Milton H. Porter, of Portsmouth, broke his leg yesterday in the attempt to separate two friends who were fighting. The three went to the country together, Two of them quarreled and then began fighting. While interfering to stop the fight. Porter was tripped by one of the men and fell to the ground, breaking his leg. The fracture was reduced and the patient is; doing well. The fighters stopped to bring the injured man to the city.

A young boy, the son of Joseph Howard, of Portsmouth, was seriously wounded today by an exploding shell. The shell was in Kootz's store as a curiosity. It was a one pound navy shell and there is no explanation of the cause of the explosion, but a fragment was driven through the

CHARGES AGAINST POLICEMAN.

Another one of the good government policemen is in trouble. Charges have been filed at police headquarters against Officer Becraft. He has been one of the active political supporters of the good government faction, and therefore there is a double reason for suppressing and minimizing the alleged offenses. The charges are filed by Dr Bowen, an intelligent and respectable negro physician and druggles in Church Street, who says that the officer came to his place and created a disturbance while in uniform and not in a condition to walk a chalk line. Chief of Police Boush is absent from the city, attending a meeting of the chiefs of police in Washington; hence no action has been taken on the complaints. Meantime the good government politicians declare that it is the statement of a negro against that of a white man. But the white man reported that he was too sick for duty meantime.

NEW TRIAL FOR TOWNLEY.

Former Policeman C. T. Townley obtained a new trial on a motion in the Corporation Court to-day. He was in jail on the conviction by the juty of obtaining \$700 from Ruby Ford on the false prictense that he could secure the release of her sailor husband, Harry Halcott, from the prison ship Southery, where he is confined on the charge of descriton after having been arrested and delivered by Townley. The new trial is granted on the allegations and affidavits filed by Colonel G. C. Cabell to the effect that Ruby Ford's testimony is not consistent with itself and with the facts. Townley was one of the judges for the good government faction won the city administration. He has had two trials. In the first there was a disagreeing jury; in the second he was sent to jail for a year. He is balled out now for \$1,000 by his brother, a non-resident. The case has excited interest because of the political activity of the accused.

A few choice selections of instrumental music were delightfully rendered by Mrs. Umberger and Mrs. Van Doran, and a violin solo by Miss Nettie Baanche contributed in large degree to the enjoyment of the occasion.

humiliate life, is Contagious Blood Poison. Sorrow, shame and suffering go hand in hand with this great enemy, and man has always hated and fought it as he has no other disease. It is the most powerful of all poisons; no matter how pure the blood may be, when its virus enters, the entire circulation becomes poisoned and its chain of horrible symptoms begin to show. Usually the first sign is a small sore or ulcer, not at all alarming in appearance, but the blood is being saturated with the deadly poison, and soon the mouth and throat begin to ulcerate, the hair and eyebrows drop out, a red eruption breaks out on the body, copper-colored splotches and sores make their appearance and the poison even works down into the bones and attacks the nerves. Not only is the disease hereditary, being transmitted from parent to child, in the form of scrofula, weak eyes, soft bones, weak, puny constitutions, etc., but is also so highly contagious that many a life has been ruined by a friendly hand shake, or from using the toilet articles of one infected with the poison. To cure this blighting, deadly curse the blood must be purified, and nothing will do it so quickly and surely as S. S. S. The audience, like the choir, consisted of all denominations and worked together with charming fellowship.

The house was filled almost entirely with ladies, and Dr. Hatchers appeal for money suffered by reason of this fact, but the sum of a little over \$500 was secured, which lacked but little of being sufficient to cover the indebtedness on the building.

In the afternoon Dr. Bagby preached in the Methodist Church and Dr. Hatcher preached again in the Baptist Church, after which both congregations, as far as possible, thronged into the new building to hear the dedicatory service. It was simple and brief, but deeply impressive, prayer being offered by Dr. Bagby. Great credit is accorded to the Rev. His audience was entirely in sympathy with his utterances and voelf-crously applauded every point. The requirement of the board that all wagons using the public roads shall be equipped with wide tires by the first of September, is causing some dissatisfaction in the county, particularly in Matoaca District. A motion to reconsider the board's former action was strongly opposed by Mr. H. Swineford, of the Advistory Road Board, and Mr. Middendort, and was finally laid on the table. It seems probable that the time for the requirement to take effect, however, may be extended until about the first of Decomber.
